Osvětlení LED

Do stěnového profilu lze nainstalovat pásek z LED diod, který efektně nasvítí sprchovou zástěnu a může dodat Vaší koupelně trvalé osvětlení při minimální spotřebě elektrické energie, což oceníte zejména v noci.

LED illuminator

The wall profiles can be equipped with LED strips which spectacularly lighten the whole enclosure and your bathroom will gain a permanent illumination with a minimum energy demand. An advantage for night walkers.

Hydromasážní systémy *Whirlpool systems*

HYDRO

Vířivý systém HYDRO je založen na principu cirkulace vody. Tělo je masírováno vodou smíšenou se vzduchem, která proudí z trysek umístěných po boku vany.

Vybavení:
trysky MICRO SLIM **8+4+2ks** (8 po bocích, 4 na záda a 2 na chodidla) respektive pro symetrické vany **8+4+4ks** (8 po bocích, 4+4 na záda), možnost výběru 5 typů ovládání.

Whirlpool system HYDRO is based on the principle of water circulation. The body is massaged by the water mixed with the air, which is streaming from the jets, which are placed on both sides of the bath tub.

Equipment:
jets MICRO SLIM **8+4+2pcs** (8 on the sides, 4 for back and 2 for feet) or for symmetric bath tubs **8+4+4pcs** (8 on the sides, 4+4 for back), option: 5 variety command controls.

TURBO AIR

Perličkový systém TURBO AIR masíruje tělo pomocí předehřátého stlačeného vzduchu, který proniká ze dna vany malými otvory.

Vybavení:
30-50 vzduchových kanálků na dně vany, možnost výběru 5 typů ovládání

Air massage system TURBO AIR massages the body by heating up compressed air coming out from the small holes on the bottom.

Equipment:
from 30 to 50 air holes (based on bath tub type) on the bottom of the bath tub, 5 variety command controls, regulation of the blower

KOMBI

Vířivý a perličkový systém KOMBI využívá přednosti systémů HYDRO a TURBO AIR.

Vybavení:
trysky MICRO SLIM **8+4+2ks** (8 po bocích, 4 na záda a 2 na chodidla) respektive pro symetrické vany **8+4+4ks** (8 po bocích, 4+4 na záda), 30-50 vzduchových kanálků na dně vany, možnost výběru 5 typů ovládání

System KOMBI is the combination of the above mentioned systems HYDRO and TURBO AIR.

Equipment:
jets MICRO SLIM **8+4+2pcs** (8 on the sides, 4 for back and 2 for feet) or for symmetric bath tubs **8+4+4pcs** (8 on the sides, 4+4 for back), from 30 to 50 air holes (based on bath tub type) on the bottom of the bath tub, option: 5 variety command controls

KOMBI LUX

Vířivý a perličkový systém KOMBI LUX využívá přednosti systémů HYDRO LUX a TURBO AIR.

Vybavení:
trysky MICRO SLIM **8+2ks** (8 po bocích, 2 na chodidla) a **22ks** NANO (na záda) nebo pro symetrické vany MICRO SLIM **8ks** po bocích a **22+22ks** NANO (na záda), 30-50 vzduchových kanálků na dně vany, možnost výběru 5 typů ovládání

System KOMBI LUX is the combination of the above mentioned systems HYDRO LUX and TURBO AIR.

Equipment:
jets MICRO SLIM **8+2pcs** (8 on the sides, 2 for feet) and **22pcs** NANO for back or for symmetric bath tubs MICRO SLIM **8pcs** on the sides and **22+22pcs** NANO for back, from 30 to 50 air holes (based on bath tub type) on the bottom of the bath tub, option: 5 variety command controls

Trysky MICRO SLIM a NANO - nejtenčí dostupné trysky na trhu vynikají o 40 % vyšším masážním účinkem než běžné trysky. Ergonomicky řešené zapuštění. Polohovatelné otočné kuličky lépe řeší i situaci, kdy dochází k zalehnutí zádočných tryssek. Protože výška tryssek je pouhý 1 mm, jsou tyto trysky účinnější a příjemnější při použití hydromasážní koupele než běžné trysky, jejichž výška je 5 mm.

Micro-jets and nano-jets – the thinnest jets available on the market are great at 40 % higher massage effect compared to usual jets. Ergonomically designed embedment of the positionable rotary ball better solves the problem of back jets overlying. As the jet's height is only 1 mm, these jets are more effective and more comfortable than usual jets, whose height is 5 mm.

TYPY OVLÁDÁNÍ CONTROLLERS

1. Typ P - Pneu

Základní výbava se vyznačuje jednoduchostí ovládání při zachování plné funkčnosti. Systém je vybaven mechanickým regulátorem přísávání vzduchu pro regulaci intenzity vodní masáže.

The basic equipment is characterized by operating simplicity preserving the full functionality. The system is equipped with a mechanic air suction regulator for regulation of water massage intensity.

2. Typ A - Elektro

Střední třída výbavy zahrnuje elektronickou regulaci intenzity vzduchové masáže, mechanický regulátor přísávání vzduchu pro regulaci intenzity vodní masáže, pulsaci vzduchové i vodní masáže.

The middle class equipment includes an electronic regulation of air massage intensity, a mechanic air suction regulator for regulation of water massage intensity and air and water massage pulsation.

3. Typ B, 4. Typ Decoo - Digi

Nejvyšší třída výbavy umožňuje elektronické řízení všech instalovaných zařízení včetně výkonu čerpadla! Systém je vybaven displejem se zobrazením teploty, času masáže, aktuálního času a dalších.

The top grade equipment enables an electronic operation of all installed systems including the pump performance! The system is equipped with a display picturing temperature, massage time, current time etc.

5. Typ S

Nejnovější typ ovládání S-Touch přichází s revoluční myšlenkou elektronického ovládání hydromasážní vany bez tlačítek. Vlastní snímače jsou umístěny pod akrylátovou deskou skořepiny vany a bezdotykově snímají ovládací impuls vyvolaný pouhým přiložením prstu.

The latest operation type S-Touch presents a revolutionary thought of an electronic operation of an hydromassage Bath tub without buttons. The sensors themselves are located under the acrylic desk of a baththub shell and scan contactless the actuating pulse evoked by approximating finger.

DOPLŇKY K MASÁŽNÍM SYSTÉMŮM MASSAGE SYSTEMS ACCESSORIES

1. Halogen 12 V/35 W, chrom
Halogen 12 V/50 W, chrom
Halogen 12V/35W, chrome
Halogen 12V/50W, chrome
2. Chromoterapie (barevné LED), chrom
Chromotherapy (colours LED), chrome
3. LED-ZONE - svítící pás podél vany
LED-ZONE – a luminous stripe along the bathtub
4. Cool Light (bílé LED), chrom
Cool Light (white LED), chrome
5. Dohřev teploty lázně bez možností vypnutí
Bath heat up without a switch-off function
Dohřev teploty lázně s možností vypnutí
Bath heat up with a switch-off function
Dohřev teploty lázně s možností vypnutí a regulací teploty
Bath heat up with a switch-off function with temperature regulation
6. Desinfekční proplach potrubí StreamClean
StreamClean disinfection flush
7. Desinfekční proplach potrubí StreamClean s automatickým napouštěním vany
